

Outreach

The Consortium employs a Web site, newsletters, activities reports, and email announcements to inform the public and health professionals in Ireland, Northern Ireland, the United States, and other countries about Consortium activities and programmes. It also supports a voice/e-mail Help Desk to answer questions and provide information about Consortium efforts. The Consortium does not provide information on job placement or cancer treatment.

WEB SITE

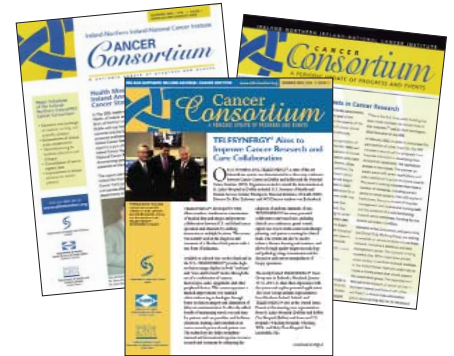

www.allirelandnci.org

Current news and information about the Consortium is posted to the Web site regularly. Information about Consortium-sponsored educational opportunities is valuable for island of Ireland oncologists, nurses, and researchers searching for fellowships and funding.

NEWSLETTER

Newsletters are periodically distributed to individuals and organizations with an interest in cancer care, research, and education. If you are interested in joining the Consortium database, please contact the Help Desk.

HELP DESK

The Consortium Help Desk provides telephone and e-mail support for individuals and/or organizations seeking assistance in connecting with the participating partners. Staff will direct inquiries/requests to the appropriate Consortium contact or will provide answers to questions related to Consortium programmes or activities.

Telephone: 001-301-496-5534

E-mail: consortium@cancer.gov
